ECUADOR COAST IS FREE FROM

(By Associated Frees)

Yellow fever, the scourge of South America for centuries has been eradicated from Gunyaquil on the a South a mording to an announcement received here by Dr. Carl H. Eigenmann, head of the department of zoology of Indiana university and an authority on South America fishes, from the sanitary commission of Ecuador The announcement was accompanied by specimens of little dishes discovered for the prevention of the disease, with a request that they be class? fied and that information be given from data collected in various Indiana university expeditions to South America as to where these fishes are to be found. The fishes have been identified and detailed information has been forwarded which will enable other South American countries to locate the fishes and use them in dealing death to the yellow fever mosquito
